

Oil & Gas

Refinery & Petrochemical

Power Plant

Services

- Refinery plant
- Utility off site
- Production Unit
- Boosting Pump
- Petrochemical Complex

Projects:

- Tehran refinery
- South Pars - Phase 13 & 19 Gas refinery
- South Pars - Phase 14 Gas refinery
- Kermanshah Petrochemical
- Borzouye (Nour) Petrochemical

Services

- Storage Tank
- Piping and Pipeline
- Wellhead Facilities
- Pump Station
- Gas Station

Projects:

- 8 Million BBL Storage Tanks
- 60 sets of Storage Tanks with the capacities up to 1,000,000 BBL each
- More than 250 kilometer piping, up to 60 inch size

Services

- Single and Combined Cycle Power Plant
- Sub Station
- Transmission line
- GIS

Projects:

- 6 Power Plants, Different Units
- 4,500 MW Single and Combined Cycle Power Plants

Clients:

- 1- National Oil Terminal Company (NOTC)
- 2- National Iranian Oil Pipeline & Telecommunication Company (NOTPC)
- 3- National Iranian Oil Engineering & Construction Company (NIOEC)
- 4- Pars Oil & Gas Company (POGC)
- 5- Petropars Iran (PPI)
- 6- Petroleum Engineering and Development (PEDEC)
- 7- Iran Power Development Company (IPDC)
- 8- National Petrochemical Company (NPC)
- 9- South Refineries Company of Iraq (SRC)
- 10- State Company for Oil Projects of Iraq (SCOP)
- 11- South Oil Company of Iraq (SOC)
- 12- Heavy Engineering Equipment State Company of Iraq (HERSCO)

Projects :

1. Engineering, Procurement, Construction and Commissioning of South Yaran Oil field Wellhead Facilities and Pipeline in Ahvaz (EPC)
2. Engineering, Procurement, Construction and Commissioning of oil and gas exporting pipeline, gas pipeline to NGL3200 and oil pipeline to West Karoon pump station in South Azadegan Oil Field in Ahvaz (EPC)
3. Abadan Pump Stations and Pipeline (EPC)
4. Khang Island storage tanks (4*1,000,000 BBL) (PC)
5. Bander-e-Pall Pump Stations & Strategic Storage Tanks (450,000 BBL)(EPC)
6. Bandar Abbas Oil Product Export & Import Pipeline & Facility (EPC)
7. Kermanshah Petrochemical Complex Utility & Off-Site (C)
8. Unloading System Improvement and Cooling System Extension in Tehran Refinery (EPC)
9. Eair Chemical Tank Farm Terminal in Mahshahr (PC)
10. Asalouyeh Gas Refinery (Phase 1, 146 T) Sulphure Recovery & solidification Units (C)

Iraq Projects :

1. Design, Supply & Fabrication of Floating & Fixed Roof Oil Product Storage Tank (3 no.) in Basra & Nasiriyah
2. Design & Supply of Four Floating & Fixed Roof Oil Product Storage Tanks with Ancillaries at Osara Oil Refinery in Baghdad
3. Design, Supply and Installation of Connections and Motorize valves for Najaf Basra Pipeline

PARS KAYHAN

**Believe in safety**

As a service Company working in the oil and gas industry, which operate in difficult and often hostile environments, we always put the safety of our people first. We are determined to achieve the highest standards in health, safety and environmental performance. We develop deep capability and safe operating culture across all levels of Pars Kayhan.

Bring the Quality

Pars Kayhan Co. implements his own Quality Policy to become a first class enterprise in the Middle East by providing products and services with the best quality to his Customers. We utilize a quality management system that satisfies all the requirements of ISO 9001:2008 certification and ensures all employees understand and abide by its strict quality-assurance policies. We make every effort to provide the best quality with customer impression by being well aware of the quality policy and accomplishing quality objectives.

Qualified by MPO* as:**EPC Contractor in Oil & Gas & Industry**
